ASH GROVE CEMENT --- ASHGROVE PORTLAND 001/001

Dick Cooke

ASH GROVE CEMENT WEST, INC.

SEATTLE, WA 98134

INTER-OFFICE MEMORANDUM

Date: September 6, 1991

To: Ken Rone

From: Nata Fernow *Nata*

Copies to:

Subject: Grading Fill Standards

The City of Seattle General Grading Standards Section 22.804.090, Cut and Fill Standards, Paragraph D precludes the use of "waste" or material in excess of 12" and then only to a maximum of 20%.

This standard can be over ruled by the City's Director of Construction and Land Use to allow both "waste" and larger rubble or rubble in higher percentages.

I have attached a copy of the Seattle Grading Provisions for your review.

USEPA SF

1261725

Dick:

IS THIS THE "PERMIT" YOU HAD IN MIND. MY THINKING IS THAT YOU WERE REFERRING TO SOMETHING MORE SPECIFIC. THIS IS THE REQ. THAT CONTROLS ANYTHING WE PUT INTO THE GROUND REGARDLESS OF WHETHER A WASTE WATER PERMIT IS INVOLVED. I THOUGHT YOU HAD SOMETHING ELSE IN MIND.

PS. THANKS FOR THE COMPLIMENTS ON THE "CEMENT REVIEW" ARTICLE. DAN WROTE IT HOWEVER. FROM THE CHAPTER "SURROUND YOURSELF WITH GOOD PEOPLE". etc

Can we use dredge tailings to fill the pond?

ANS: YES! THERE ARE SOME DREDGINGS THAT MAY BE ALLOWED BUT NOT OUR DREDGINGS. KR 9/13
